

ARRIVAL OF THE BARK YANKEE.

The regular packet bark Yankce, Capt. Geo. W. Clarton, arrived early on Sunday morning, Feb. 28d, 14 days from San Francisco, bringing a small mail and ten days later advices from the East.

The news is not very important, and political affairs remained in about the same situation as at the previous dates.

From the various telegraphic dispatches to the Alta and Bulletin, we glean such as are worthy of being transcribed. We find no reference in the papers to the reported passage of the Pacific Steamship line, and the action of Congress on the Pacific Railroad Bill must have given rise to the report.

Telegraphic Advices Feb. 1 to 6. CHICAGO, February 1-4-A Washington dispatch to the N. Y. Tribune, says the postal receipts during the last quarter of 1861 are but little less than during the same period the year before, when mails went all over the Union. The cost of transportation is three millions less.

A Richmond dispatch admits that the aggregate force of the rebels now in the field is but 250,000. The sum of \$2,800 damages has been awarded to the captain of the Spanish bark seized and brought

in as a prize by our crusiers. New Supreme Jungs -Judge Swain, of Ohio, has been appointed to the Supreme Bench. PULASKI ABANDONED .- Fort Pulaski has been abandoned by the rebels, and will be occupied by the

GENERAL SIGEL -Gen. Sigel is to have an important command on the Potomac. THE RECOGNITION OF HAYTI REFUSED .- The House has striken out of the Senate bill the diplomatic re-

cognition of Hayti and Liberia. The N. Y. Herald's Washington dispatch says Gen. Heintzelman is soon to be placed in command of another grand expedition to the South, the details

of which are yet secret. FROM SOUTH CAROLINA .- Col. Reynolds, Government agent at Port Royal, reports having secured a dollars worth of cotton, and that some 2000 negroes, who were engaged in gathering the staple, are orderly and industriou

The report that the rebels had evacuated Manassas

In Congress, the Committee of Ways and Means are perfecting the details of the Tax bill. It proposes to moderate taxation on most articles necessary for consumption, with higher rates on liquors. It also levies a tax on passengers by railroads and other conveyances, newspapers and telegrams. The Com-mittee is also considering the subject of a National Banking law, requiring a deposit of United States Stocks as a security for bank notes circulated as currency. Letters continued to be received from emi-

nent bankers favoring the Legal Tender bill. Gen. Butler will take several brigades to a point on the Southern coast not now occupied by Union troops. Gen. McClellan was opposed to this, but Secretary Stanton insisted that Gen. Butler should Fort Pulaski near Savannah is now thoroughly in-

vested and can be taken whenever Gen. Sherman chooses to attack. A movement which will probably prove successful, is being made here by western Congressmen to make Gen. Sigel a Major General.

The Southern papers contains the following: SAVANNAH, January 29.—The city is comparatively quiet-no immediate altack is anticipated. Two steamers and flatboats conveying provisions to Fort Pulaski were fired on by the Federalists. A battle ensued, which lasted 40 minutes. The provision boats returned slightly damaged.

A letter from an officer in the Fort says the F derals cannot take it by any attack they can make. Prisoners of war by a flag of truce from Richmond, confirm the departure of Beauregard with 15,000 troops for Kentucky, and say that Jeff. Davis will take command in person at Manassas after his inauguration on the 22d of February.

The greatest consternation prevailed at Norfolk and Richmond in regard to Burnside's expedition. The report at Richmond was that the Merrimac (formerly a U. S. steamer, and iron-plated by the rebels.) was a failure.

Southern papers are much exercised on the subject of re-enlistment, the time of most of their troops expiring early in the spring. In Congress Mr. Chandler presented resolutions

from the Legislature of Michigan, asking the Government to speedily put down insurrection, and favoring the confiscation of the property of rebels, and urging that as slavery is the cause of the war, it be swept The House Committee on the Pacific Railroad to-

day determined to report a bill, but without r. commending its passage or rejection. The Governor of Louisiana has vetoed the bill to loan cotton planters \$7,000,000 of State Treasury

The British Consul at Mobile has sent a messenger by a flag of truce, demanding the liberation of the schooner Wilder, recently captured by our fleet, on the ground that she is a British vessel.

NEW York, January 31 .- Ericsson's famous Floating Battery was launched at Green Point yesterday, and will be ready for service in about a week. The N. Y. Times dispatch says private letters from

abroad confirm the impression that England, France and Spain meditate the early recognition of the Con-federate States, on the ground of humanity.

It is asserted there are not ten Republican members in the House prepared to advocate an immediate and unconditional emancipation of slaves. All hope of this sort of legislation is now abandoned, and the Administration programme of preserving the Union and Constitution, and enforcing the laws, is said to be omnipotent in the House.

WASHINGTON, February 2 - Notwithstanding the tone of some foreign journals on the stone blockade, a dispatch received at the State Department asserts that there is complete restoration of good feeling in England, France and other Continental States. It is rumored that Gen. Banks will assume the charge of the Navy Department.

There is about six inches of snow on the Virginia side of the Potomac. Sr. Louis, February 2 - Gen. Halleck has order.

ed several companies of the 4th Missouri Regiment to hard labor on the Cairo fortifications for their mutinous conduct. Officers of said companies will be discharged and mustered out of service for not enforcing order and military discipline. Sr. Louis, Feb. 3 .- Price, though so formidably

menaced, evinces no disposition to fall back, but from present appearances, seems determined to give battle. Should be maintain his position two weeks longer, Springfield will be the theatre of as bloody a contest as that which has already made that place famous in the history of the war.

Southern papers acknowledge Zollicoffer's defeat at Somerset, with the loss of 300, but as usual, vastly overrate our force. General Crittenden and four Colonels were wounded. The Fulton Bank and other buildings at the corner

of Fulton and Pearl streets, New York, were burned

Jan. 27. Loss \$500,000. The Congress committee of the District of Columbia have decided to report adversely in the matter of

abolishing slavery in the District. The main feature of the report will be the inexpediency and unconstitutionality of abolition. A resolution has been introduced in the Maryland

Legislature, requesting Senators Pearce and Kennedy to resign. CHICAGO, February 6 .- Advices from Washington of the 5th instant, state that Senator Bright was ex-

pelled from the Senate on that day. The galleries were densely crowded, and the audience expressed entisfaction at the result. Previous to his expulsion Mr. Bright spoke at length in his own defense. He left the chamber be-

fore a vote was taken. The N. Y. Times's correspondent at Paris says secret documents from Jeff Davis have been furnished to the governments of France and England, which give full details of the resources of the Confederacy, and point out the advantages which France would derive by aiding the establishment of the Confedera-

The Committee on Commerce reported adversely to abrogating the Canadian reciprocity treaty, and advocate the enlargement of its commercial relations.

The report was committed for further action. Washington, February 6.—A special dispatch to the N. Y. Herald states that Mr. John Parker, Consul

hypothecate the entire group of the Sandwich Islands o Great Britain. Those who voted against Mr. Bright's expulsion were Messrs, Bayard, Cowan, Carlisle, Harris, Kennedy, Latham, Nesmith, Pearce, Powell, Rice, Saulsbury, Ten Eyck, Thompson and Willey.

at Honolulu, has arrived, and informs the Govern-

ment that agents had been sent to England to

Terr ific Storm at Hatterns. FORTRESS MONROE, January 27 .- The steamer Eastern State, which left Hatteras Inlet last night, arrived here late this morning. The recent storms were unusually severe at Hatteras, and considerably delayed and crippled the expedition. The fleet left Hampton Roads on the 11th and 12th, and consisted of over 125 vessels, of all classes. It arrived at Hat-teras between the 12th and 17th, having been greatly retarded by severe storms and adverse winds which prevailed during that time. After the arrival of the fleet there were experienced a series of uparalleled storms-so severe at times that it was impossible to hold communication between any two vessels of the fleet. After the storm subsided, it was discovered that no vessel drawing over 7 feet 8 inches could pass into Pamlico Sound, nor could any vessel pass the outside bar drawing over 13 feet, unless very skilful-

LIST OF DISASTERS.—The steamship City of New York struck outside the bar. She had a cargo of ammunition valued at \$200,000. She was a total loss. The crew were saved.

The steamer Pocahontas went ashore near the light-house, and became a total loss. Ninety valuable horses, belonging to the Rhode Island battery, were on board and were all drowned. The Grape Shot parted her hawser, and went

down at sea, crew saved. A Government schooner, name unknown, loaded with oats, and another vessel, name not known, with crew, were lost on the beach. The steamer Louisiana struck on the bar, where she still remains. A report of her burning is incorrect. She may be got off.

Mexico. Advices from Mexico confirm previous accounts of the union of all parties, and the intention to make common cause against the invaders.

TROUBLES OF THE INVADERS -A Washington special dispatch to the New York papers, says, letters from Havana state that the allies are greatly dissatisfied at their prospects in Mexico, and complain that Miramon had deceived them. They expected aid from a strong party, whereas they find the population united against them, and express the conviction that the present force is inadequate to bring the Mexicans

Much discontent prevails among them, and several quarrels have already occurred, in consequence of which the French are to be sent to Tampico, and the English to attack Matamoras.

Minister Corwin writes that the leading spirits of the new Administration declare that Mexico will make a successful resistance to the invaders.

Later from Europe.

Great Britain.

HALIFAX, Jan. 27. The steamer Europa, from Liverpool on the 11th, and Queenstown on the 12th Jan., has arrived. She brings neither troops nor stores. It is reported, that warlike preparations in England have not relaxed. Steamers continued taking heavy stores for Halifax,

THE AMERICAN DISPATCHES -American dispatches were considered in council on the 9th. The Times understands that an answer will be returned expressing gratification at the disavowal of Commodore Wilkes' act: accepting the satisfaction tendered, and giving assurances that the precedent in the Trent case will rule in the case of the schooner Eugene Smith, as to the laws of neutrals. The Government will disclaim [defer] an answer until it has had the ne the whole note f ry Seward] to the law officers. There are proposiions in the note inadmissable, but after the release of the prisoners they may be properly discussed.

Tone of the Press .- The Morning Post announces that though an understanding with our Government has been arrived at, Mr. Seward will have succeeded in impressing on the English Government a notion that they must have not only present indemnity, but an ample pledge for future security.

The Daily News has a eulogistic notice of the course pursued by the Washington Government. The Times has strong editorials on the reception due to Mason and Slidell, as habitual revilers. England sincerely hopes that Englishmen wont give them on ovation. It says that England has returned them good for evil. If they can, they will only too willingly entangle her in war with the North. England would have done so for two negroes.

Other journals advise a similar course. The Times reiterates a condemnation of the stone blockade, and says that among crimes which have disgraced mankind, it would be difficult to find one more serious than this. It asserts that no belligerent has a right to resort to such warfare.

THE NASHVILLE .- The . Nushville [rebel steamer] remained at Southampton. The Government maintained the strictest neutrality towards her. Nothing was permited to be done except to render her sea-Russell's correspondence to the Times predicts the fate of the American Government sealed, if January

pass without a great victory. France. The Pacific termination of the Trent affair caused rise on the Bourse of 1 per cent. The Monileur says that a feeling of profound regret and indignation has been aroused in England and France by the vindictive act of destroying the

port of Charleston. Russia. It was reported that Russia had sent an embarrassing ultimatum to Rome, that if the Pope did not condemn the conduct of the Polish clergymen, Russia

would recognize the Kingdom of Italy. The latest telegram from St. Petersburg, has an article congratulating Mr. Seward on the uprightness of his policy, and demanding that the French precedent should be made a standing point in the negotiation for a recognition by the powers. England should give the world solemn guarantees for the future y signing a convention, which, by insuring universal respect for the rights of neutral powers, would contribute to the maintenance of peace and mark the progress of civilization.

Dates to Sunday, January 19th. New York, January 31 .- The steamship Africa, with advices from Liverpool to January 18th, and from Queenstown to January 19th, has arrived. The London Daily News, in reviewing Seward's Trent dispatch, says: "Although it contains much hat is questionable in law, its main positions are

based on acknowledged legal principles." The London Observer [weekly] suggests the expediency of intervention by France and England between the Federal and Confederate States.

More diplomatic correspondence has been publish. ed, including a letter from Seward to the Secretary of the Navy, condemning the taking of the British schooner James Campbell into New York with the British flag flying under that of the United States, and another note condemning American commanders for exacting an oath from British seamen for breach of blockade.

It is reported that Lord Russell, in response to a emorial from the Liverpool Ship Owners' Association, in reference to the Stone Blockade at Charleston, said he had warned the Federal Government against the feeling that such proceedings would en-gender, and after the design had been carried out had sent another dispatch expressing strong hopes that the sinking of vessels would not be repeated elsewhere. It is rumored that the French and other

Governments are taking similar steps.

The pirate Sumpler had been ordered to leave Cadiz by the Spanish Government, and she had gone to Gibraltar. The Paris Journal des Debats thinks that Lord Palmerston's intentions towards the United States

The Paris Temps says that Mason and Slidell should be allowed to plead in the French Court for the recognition of the Southern Confederacy; while the Paris Presse says that the French Government will not receive them or any other Southern Commis-

The Independence Belge says France will take the initiative in making a diplomatic remonstrance against the blockade of Southern ports, and that England will only afford France a moral support.

Hilo Still Ahead-Great Hailstorm.

HILO, Feb. 18th, 1862. MY DEAR COMMERCIAL :- Although supposed to be the third town in the kingdom, Hilo, we believe, who have the happiness to own a house and a lot within its beautiful bounds, is or ought to rank at least number two, if not one and a half.

In the poor sunburnt town of Lahaina, where they do not have to "bottle the dust" as a variety, water is a scarcity and ice a " non est findibus," as the Illinois Sheriff said on the return of a warrant. There nothing disturbs the equanimity of its " oldest

In the now decaying city of Honolulu (or supposed to be by outsiders,) any thing is eagerly jumped at to make a poor kunaina believe that Honolulu still is around; a little jar of old mother Pele, though we claim Pele entirely, is immediately magnified into a "severe Earthquake" "not seen or felt before by the oldest inhabitant." (not supposed to be very old, however,) " much alarm," &c. Why, now, an earthquake that does not tumble down walls, overturn your milk pans, open your doors, &c., is not even spoken of here in our " paim-embowered town."

Some midnight adventurer, in your deserted streets is alarmed by the fall of small bits of frozen rain, and after an hour's search, collects three or four as trophies, relates with dilating eyes the "wonderful fall of hail," "enormous hailstones as large as filberts," &c. Why, my dear Commercial, when it hails at Hilo, it hails no filberts and peas, but "bullets and pigeon eggs." Yesterday, the 14th, about 1 P. M., Dame Nature sprinkled about a few CONSISTING IN PART AS FOLLOWS, vizz of your Honolulu hail stones, in order to show us what a treat she had given you, when paying a visit to Mauna Kea, she picked up her apron full of what we call "hail stones," and dropped them down upon us at about 3 P. M., in a perfect shower. The ground in many places was from three to four inches deep with hail, and entirely covered. Barrels and barrels were gathered by its Yankee inhabitants, and oh the delicious " Ice Creams" we had, and are still having, mind you. That is what we call hail. Stones, some of which were measured, were one inch in diameter. Several windows were broken though no serious damage was done. The shower lasted but a few minutes, and the hail fell in such quantities that it has not entirely disappeared at the time of my writing. The storm passed over a space of about three or four miles in width I might "bottle" you some, but in the condition it might reach you, I fear you might think it was the common Hilo hail. When you of Honolulu try to get up another earth-

quake or hail storm, just send up here for a sample. But I don't think it will need anything more to convince you that " Hilo is still ahead." Yours &c. HILO.

FRENCH HOTEL! On Fort street, above Hotel-private entrance from Hotel street. THE PROPRIETOR OF THIS WELL-known and popular establishment, respectfully informs his friends and the public generally, that he has refitted and opened this house for the accommodations of those who kindly wish to bestow their patronage on him.

Strangers visiting the islands, would do well to call and see the accommodations, as the proprietor feels sure that none like them can be had on as reasonable terms.

The sleeping apartments are thoroughly ventilated—the locality is pleasant and agreeable, and the tables will always be fur

ity is pleasant and agreeable, and the tables will always be fur nished with the choicest the markets afford.

The proprietor is confident, from his long experience and strict attention to the business, that he can give full satisfaction to all who may favor him with a call. JOHN DAVIS, Proprietor. Late of National Dining Saloon. N. B.—Ladies may depend upon Mrs. Davis sparing no pains

I am prepared to furnish all kinds of containers for Sugar Molasses, Provisions, Rice and other articles at a cheaper rate, than any imported. Orders addressed to my Agents MESSRS. . HOFFSCHLAEGER & STAPENHORS'

Will be promptly attended to

Honolulu, January 15, 1862.
